

WebGL 3D Room Screenshots

This PDF contains a series of screenshots showcasing the features of the WebGL Room Walkthrough application.

Explore the single room, look outside through windows, and move around using your mouse and keyboard.

The screenshots highlight the details of the 3D model, textures, lighting, and controls, giving you a glimpse of the immersive experience that the application provides.

Browse through the screenshots to get a sense of what the application looks like before running it on your local machine.
